

## **BACIS Final Meeting**

### **Bishop Castle, UK, 22nd and 23rd of September 2018**

Explanation about the Michaelmas Fair by Ian.

Michaelmas is an ancient Holly day. The fair exists for about 25 years.

Monika provides the partners an update of the project's situation.

We have two months to write the project's final report. All partners should deliver 3 workshops. Monika needs dates, attendance lists of the workshops.

The guideline is ready. It needs to be a bit more graphical before putting it on line. The website is not ready in all languages, it will be implemented really soon since all translations are available.

As an added value, we got the opportunity to visit interesting social enterprises which was actually the main goal of the project.

It is better if we can translate the guideline in national languages.

TO DO ESE:

- Check if we have performed 3 workshops
- Translate guideline
