

2nd Newsletter- (GEM) inter-Generational European Memories

The second meeting of GEM partners took place on 25 February 2013 in Seville.

The delegates from the following countries participated in the meeting: Spain, Poland, Austria, Turkey and France. During the meeting each partner presented its own ways and ideas on how to implement the biographical method in their organization. During the session, we discussed and agreed upon such topics as the start of the workshop, the theme of the workshop, what kind of workshop sessions should be included, science book, date and programme of the next meeting.

The following tasks have been established by the partners:

- 12-13.09.2013 – next meeting in Nazilli
- 01.03.2013 – questionnaire on website, evaluation (all partners)
- 07.03.2013 – evaluation of second partner meeting, evaluation and report (Spain)
- 23.03.2013 – second Newsletter: dissemination (Poland)
- 31.03.2013 – translation of flyer text (all partners)
- 01.04.2013 – start of biographical workshop with seniors (all partners)
- 13. 07. 2013 – finish workshop and put biographies of seniors on internet (all partners)
- 31.03. 2013 – change of the project timeline (Poland)

to summarise our meeting, each aspect of the planned programme has been implemented. By the time of the next meeting, each partner will put biographies of seniors on the internet. Furthermore, willing partners should write an article about how our biographic methods and our project could be implemented in the book. The timeline of project will be changed – the workshop should be conducted earlier because we need more time to prepare the science book.
