

INTERNATIONAL WOMEN'S DAY, MARCH 8TH

Written by Françoise Dussoir, in the framework of the COM-IN project

During last weekend , eleven women have been invited by the Colors Festival to celebrate the Women 's day in Paris 13 th , at the Butte aux Cailles. These street artists have painted or stuck a design on a wall at the corner between rue Alphan and rue Barrault. There are many other street paintings to discover along the streets of this neighborhood. It's very pleasant to walk there and discover a large variety of street art.
