

E-Seniors in Lecce for the kick-off of project Erasmus + CLICK CLEVER

15 November 2018

E-Seniors was in Lecce on November 13th for the Kick-Off Meeting of CLICK CLEVER: Social Education for Digital Tardives, a Project co-funded by the Erasmus+ Programme of the European Commission.

CLICK CLEVER is implemented by a Consortium of 8 Partners from 5 European countries (Belgium, France, Greece, Italy and Spain). CLICK CLEVER will develop free online training modules to make “digital immigrants” able to live in relational environments such as social networks, and to think critically about contents they receive through social media.

At the meeting, Partners jumpstarted Project implementation planning the activities of Intellectual Output 1 to develop the CLICK CLEVER Platform. Then, Partners outlined the details of Intellectual Output 2 by discussing the common methodology for the Capacity Gap Assessment.

The Kick-Off Meeting also represented a great opportunity for Partners to agree upon the web domain, in order to foster Project visibility and to launch dissemination activities.

E-Seniors will contribute by developing contents for the micro-training of teachers and users, carrying out a state of the art analysis of the digital gap and an impact analysis of the project for its participants and by giving input to a guide for future action to bridge the digital gap.

Contact us for any information about CLICK CLEVER and the other initiatives of E-Seniors
