Lifelong Learning Programme

I would like to invite you to participate in a conference on the problems of old age, as well as biographical studies, which will be held 26-27 June 2014 at the University of the Third Age in the University of Wrocław.

The conference is the outcome of an international project "inter-Generational European memorize" (GEM) implemented within the framework of the Grundtvig Partnership Project, which is part of the European program Lifelong Learning Programme. In the project take part six educational organization from: Austria, France, Italy Poland, Spain and Turkey. During first part of the conference will be presented participating organizations, their contribution to the project. moreover, it will be shown aims and results of the project GEM. During conference will be presented also results of biographical research which were carried out under the project "Inter-Generational European Memories".

The second part of the conference will be devoted to scientific reflection on the meaning of biographical research in andragogics and place an elderly person in modern Europe. Therefore, we encourage you to prepare papers in English located in issues concerning:

- situation of the elderly in Poland and Europe;
- education of the elderly;
- biographical learning;
- Biographical research.

We invite academic teachers, PhD students and students to participate in the deliberations. We hope that the conference will be opportunity to the science discussion about older people and will be encourage good practice in the field of education seniors. Willingness to participate in the conference should be reported to: al.marcinkiewicz@gmail.com to 15 June 2014.
