

## The New European Bauhaus initiative

The New European Bauhaus brings citizens, experts, businesses, and institutions together to reimagine sustainable living in Europe and beyond.

During 2023, we worked on our Erasmus+ NEBULA Project for more than 6 months and would like to report on the work done.

Firstly, we have prepared “The NEBULA Dos And Don’ts Manual For Young Entrepreneurs”, which is currently being tested by youth and youth workers, entrepreneurs and other interested persons. Shortly after validation, we will publish the final version, which includes the following sections :

- Finance: a sound financial management is key to any venture;
- Management: different business management approaches, Soft skills needed to positively act as a leader and sustainable business practices ;
- Communication: young people will be equipped with competencies on how to communicate their initiatives

Secondly, we have started developing The NEBULA Training Program and sharing platform, at the current stage we are expecting validation from experts, including professors, youth workers, learning specialists, and entrepreneurs.

The NEBULA Training Programme and sharing platform will be made of three main sections, corresponding each to a main feature of the platform:

- 1) The NEBULA Dos and Don'ts for young entrepreneurs
- 2) The NEBULA Training Programme: the programme will be made of two courses: NEBULA Skills for Young Entrepreneurs, and NEBULA Methodology
- 3) The NEBULA sharing platform
