

DIGITAL STORIES FOR SENIORS' INTERCULTURAL LEARNING

INFOLETTER # 3 | November 24

Thanks to the pilot implementation of non-formal education activities developed within the PLAY project, the senior participants had the opportunity to experience the activities included in the educational programme, aimed at addressing intercultural learning, diversity, and European identity, while promoting their social inclusion.

Seniors had the opportunity to explore diversity and develop intercultural competences, being encouraged to explore new perspectives and learn about other cultures and Europe.

DIGITAL STORIES

By using Digital Storytelling we supported them in connect their personal life stories and memories to Cultural Heritage. The techniques of storytelling were utilized to enhance and appreciate cultural heritage, both material and immaterial. Through authentic and engaging narratives, it was possible to convey the richness and diversity of human cultures, contributing to the creation of a more inclusive, respectful, and aware world of its history and identity.

YOUTUBE CHANNEL

Seniors produced different stories about Cultural Sites and Historic Natural Landscapes, Music, Traditional Cuisine and Cooking, Local, Religious, and Family Traditions, providing a comprehensive and articulated framework for exploring and enhancing cultural heritage.

All the stories have been published in the original language and subtitled in English, French, Italian and Portuguese in the project [Youtube channel](#) @PlayEUProject
