

SHARING ECONOMY FOR SENIORS

4th NEWSLETTER – MARCH 2022

The aim of the SHES project is to provide older people with more knowledge about the Sharing Economy and the technologies needed to make the best use of it!

With the project's end approaching, the consortium members organised group training activities ("Learning and Training Activity"), with participants from all consortium countries!

Unfortunately, the situation related to the COVID-19 pandemic didn't allow us to hold the event in Ljubljana, as originally planned, but thanks to the commitment of the participants and videoconferencing tools, we still managed to successfully realise the event!

During the training activities, all participants had the opportunity to get to know seniors from all consortium countries and to exchange opinions, doubts and experiences.

SHARING ECONOMY FOR SENIORS

4th NEWSLETTER – MARCH 2022

SHES final event and Guide to the Sharing Economy!

March also sees the conclusion of the project and all its activities. To celebrate the achievements, the SHES team organised the final project conference in the city of Treviso, home of the Italian partner ISRAA.

This was a wonderful opportunity to show local associations, citizens and other stakeholders the importance of the sharing economy for seniors, especially in times of crisis, and to present the **SHES Guide to the Sharing Economy for Seniors**.

SHARING ECONOMY FOR SENIORS

4a NEWSLETTER – MARZO 2022

SHES final event and Guide to the Sharing Economy!

On the same day, in order to finalise the project activities and to ensure that the guide and research conducted by the partners reaches all interested parties, the partners met for a final meeting, also celebrating their successes and achievements!
